

TRANSFORMATION MANAGED, ELECTRONICS DELIVERED SUSTAINABLY MADE IN EUROPE

CHANGE LIGHT-LY

TRANSFORMATION MANAGED, ELECTRONICS DELIVERED SUSTAINABLY MADE IN EUROPE

Engineering the future – managing the transformation:
For a sustainable future of Europe's electronics industry

E2MS – for reliable European supply chains.

- Technical B2B Marketing
- Product management
- Turnaround & interim management
- Process optimization & digitization
- Reshoring

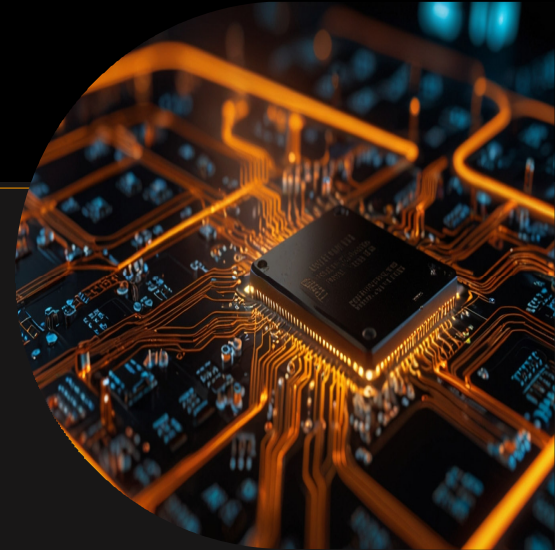

- Prototyping service
- Hardware repair service
- Reverse engineering
- EMS for small & medium batches
- Hardware & software development

ENGINEERING THE FUTURE, MANAGING THE TRANSFORMATION FOR A SUSTAINABLE FUTURE OF EUROPE'S ELECTRONICS INDUSTRY

- Reduced time-to-market
- Streamlined R&D & procurement processes
- Innovative product range
- High market perception

#ProudlyEngineeredInEurope

- Technical B2B marketing
- Product management
- Turnaround & interim management
- R&D process optimization & digitization
- European supply chains & reshoring

THE EUROPEAN ELECTRONICS INDUSTRY NEEDS

MORE VISIBILITY & REACH

Through joint Marketing

STRONGER PORTFOLIO

Through combined expertise

ACCESS TO SPECIALISTS

Through shared Expert resources

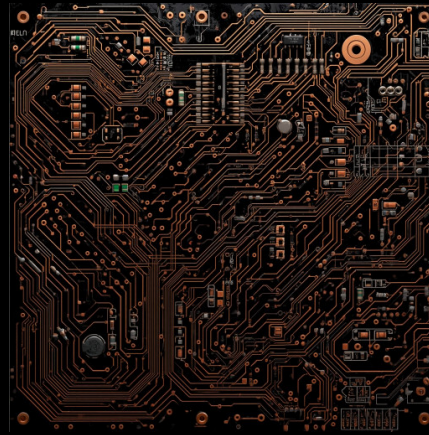

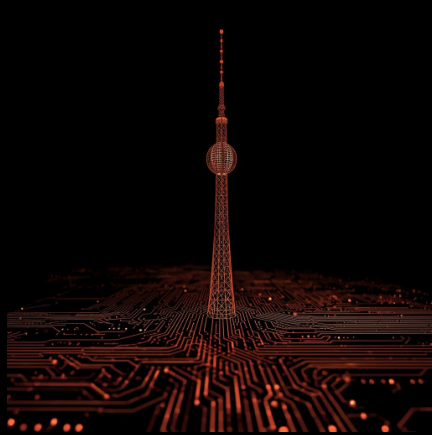

PROCUREMENT ALLIANCES

For a competitive Europe

TURNAROUND & PROJECT MANAGEMENT | TECHNICAL B2B MARKETING | CONSULTING

For the electronics industry – Based in Berlin - Supporting, connecting & transforming
OEMs, EMS, hardware & software development companies across Europe
along the whole electronics supply chain and though out the whole product life cycle.

OUR VALUES FOR EUROPEAN SOVEREIGNTY

INNOVATION

COLLABORATION

DIVERSITY

SUSTAINABILITY

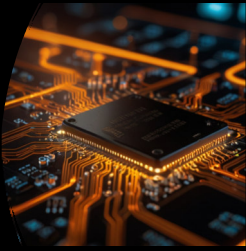

HUMANITY

RESPONSIBILITY

EUROPEAN STRENGTHS

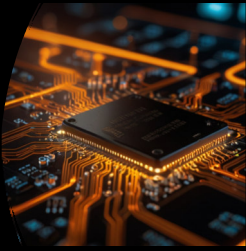

- Customized solutions for demanding areas of application
 - No delays due to time zone differences
 - Security for your intellectual property
 - Individual support & service
- 
- Shorter lead time
 - Lower carbon footprint
 - Common European goals
 - Minimized supply chain risk

PROUDLYENGINEERED
IN EUROPE

Engineering the future.
Managing the transformation.

Digitize your EMS experience
with AI-supported software
tools.

The exclusive digital ecosystem
for OEM & EMS.

Unlocking possibilities:
Engineering a smarter way of
life.

E2MS – for reliable European
supply chains.

THROUGH

- Streamlined processes & project management
- Design to Manufacture
- Prototyping under mass production conditions
- Centralized Interdisciplinary Project Management
- Product Management and Technical Marketing

WE ACHIEVE

- 20% Faster Time-to-Market
- Relief and support for your R&D department
- Increased Flexibility & rapid samples iterations
- Clearly defined USPs for customers satisfaction and greater market reach
