

Electronics Innovation Meets Procurement Precision

Electronics Innovation

Engineering the future – managing the transformation: **For a sustainable future of Europe's electronics industry**

- Turnaround management & interim leadership
- Process optimization & digitization
- Product management
- Technical Marketing
- Reshoring

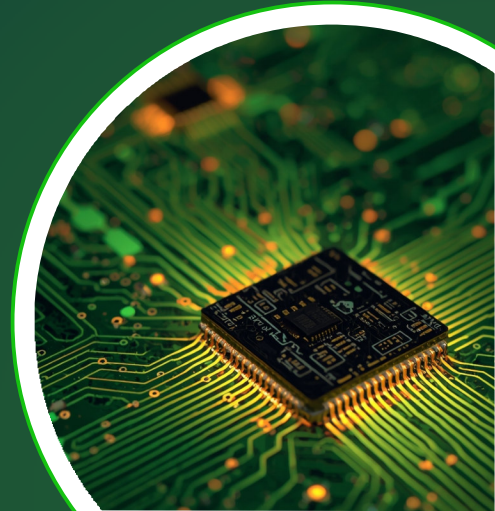

Procurement Precision

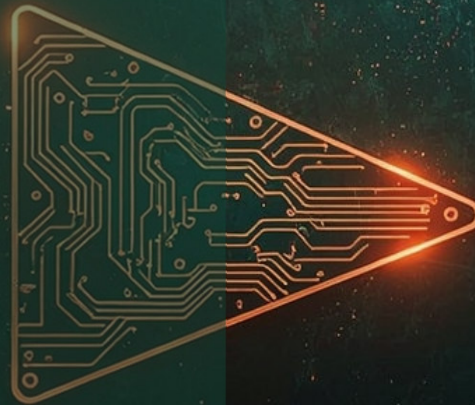

The exclusive digital ecosystem for OEM & EMS –
transparent. collaborative. innovative.

- Component & information trading
- Supply Chain Consulting
- Quality Assurance
- Repair & Reuse
- Collaboration

ELECTRONICS INNOVATION MEETS PROCUREMENT PRECISION

- Streamlined processes
- Early supplier involvement
- Customer centric solutions
- Centralized digitized information
- Design to cost

- Faster Time-to-Market
- Increased Flexibility & Scalability
- Cost Optimization & Risk Reduction

THE EUROPEAN ELECTRONICS INDUSTRY NEEDS

MORE VISIBILITY & REACH

Through joint Marketing

STRONGER PORTFOLIO

Through combined expertise

ACCESS TO SPECIALISTS

Through shared Expert resources

PROCUREMENT ALLIANCES

For a competitive Europe

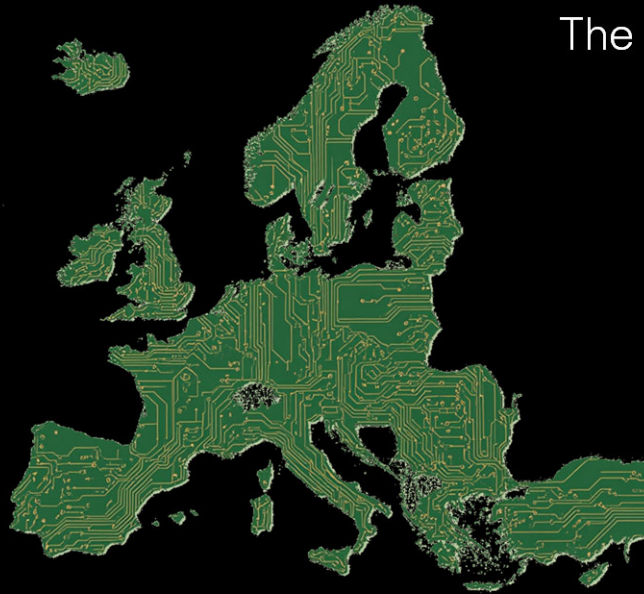

Engineering the future.
Managing the transformation.

Digitize your EMS experience
with AI-supported software
tools.

The exclusive digital ecosystem
for OEM & EMS.

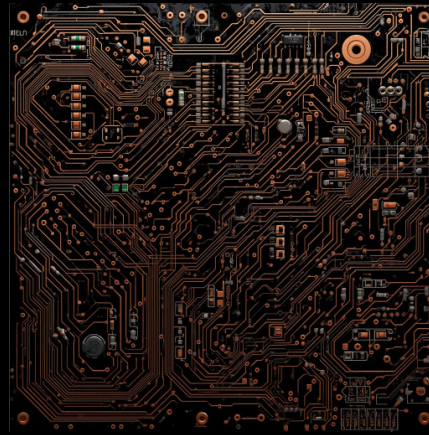

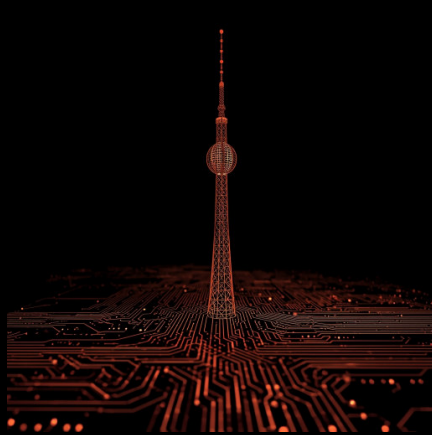

Unlocking possibilities:
Engineering a smarter way of
life.

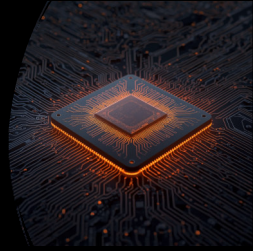

E2MS – for reliable European
supply chains.

TURNAROUND & PROJECT MANAGEMENT | TECHNICAL B2B MARKETING | CONSULTING

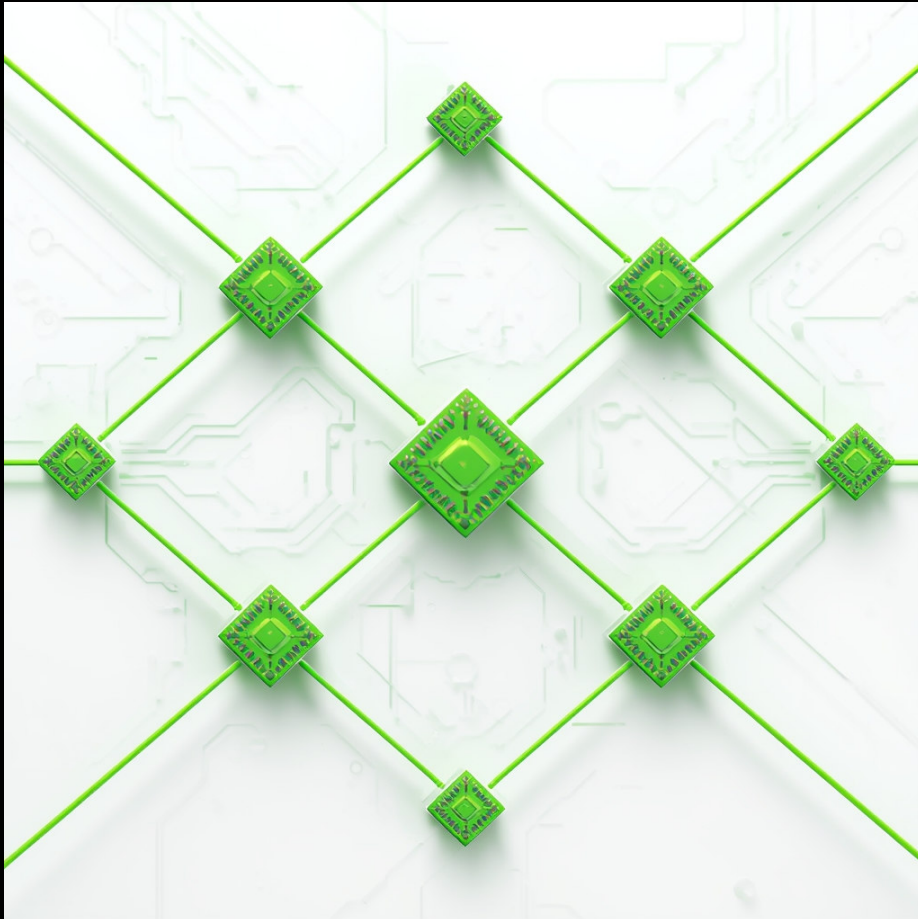

For the electronics industry – Based in Berlin - Supporting, connecting & transforming
OEMs, EMS, hardware & software development companies across Europe
along the whole electronics supply chain and though out the whole product life cycle.

DIGITAL MARKET PLACE

- LOAs
- Project prices
- Global stock levels
- Purchasing groups
- Procurement alliances
- Alternative components
- Requirements/availability
- Supply chain optimization

Successful collaboration through the #PartnerCockpit

PROUDLYENGINEERED
IN EUROPE

CUSTOMER/OEM

- LOA's
- Project prices
- Requirements

DIGITAL MARKET PLACE

- PCBA inquiries
- BOM optimization

TURNAROUND MANAGEMENT

- Project management
- Process optimization
- Technical marketing
- Team empowerment

E²MS

- Hardware development
- Prototyping
- Production
- Testing
- Assembly
